British Red Squirrel

GREY SQUIRREL MANAGEMENT TRAINING

This Lantra accredited course is for anyone interested in, or needing to, manage grey squirrel populations - whether you are a beginner or an experienced controller.
The one-day course has been developed by a partnership of the major players within the Squirrel World, and is designed to be flexible, allowing provision right across the British Isles.

Current locations include: Scotland, N. Ireland, N. Wales, Northumberland, Staffordshire, Lancashire and the South West - and is set to grow with demand.
Contact us today, to find your local course.*

For more information email us: contact@britishredsquirrel.org

We are still accepting applications for course instructors - please do get in contact if you are an experienced instructor and would be willing and prepared to teach a group.

Together we can create a collaborative approach to safe and effective grey squirrel management.

COURSE CONTENT INCLUDES: ECOLOGY OF RED AND GREY SQUIRRELS, REASONS FOR CONTROLLING GREY SQUIRRELS, LAW, WORKING TOGETHER, HEALTH & SAFETY, MONITORING, AND PRACTICAL METHODOLOGY WITH ASSESSMENT.

*Price will vary according to location - enquire to find out more.
